250K+

Decision-Makers

3.9M

Workforce Data

3 Years

Longitudinal Depth

*"The market knows GCCs are booming. **We mapped every floor of the building.**"*

Research NXT × Bamboo Reports | 8 years GTM research & consulting · 3 years building India's only structured GCC intelligence platform

The Intelligence Gap

Clients currently spend ₹30 to 50 lakhs trying to assemble GCC intelligence from fragmented sources.

Published Reports

Top-level counts at parent company level only

Published annually — outdated by 6 to 12 months at release

No centre-level data, no function breakdown

Cannot answer: what does a specific GCC actually do?

Internal Knowledge

Limited to engagements your team has directly touched

No visibility on accounts outside your client base

Varies by consultant, not systematised across the practice

Decays over time as GCCs evolve and change rapidly

What's Missing

Centre-level intelligence: every location, every function

3-year longitudinal view: how each GCC actually evolved

Technology adoption mapped at individual GCC level

Named decision-makers by function, seniority, and role

Bamboo Reports fills this gap: structured, centre-level, queryable GCC intelligence; not just data, but your entire GCC GTM strategy.

What We Built

6 interlinked data tables. 260+ man-months of structured research. India's deepest GCC intelligence.

Bottom-up architecture · 250+ structured data points per GCC centre · Built centre by centre, not top-down

2,650+

Accounts

Parent companies operating GCCs in India

6,200+

Centres

Individual GCC locations with full profiles

250K+

Decision-Makers

Named contacts across GCC leadership

3.9M

Workforce

5–12

Service-Mix / Centre

260+

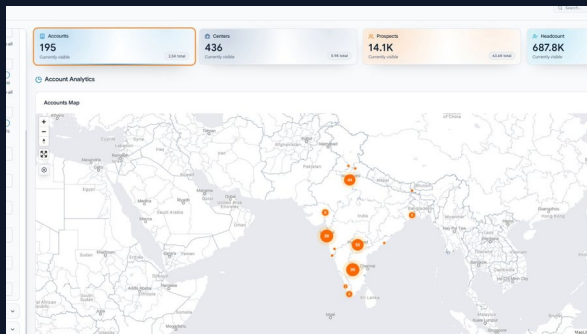

Man-Months Built

40% more accounts than NASSCOM · 3x more centres · 21x more structured data per GCC than the nearest alternative

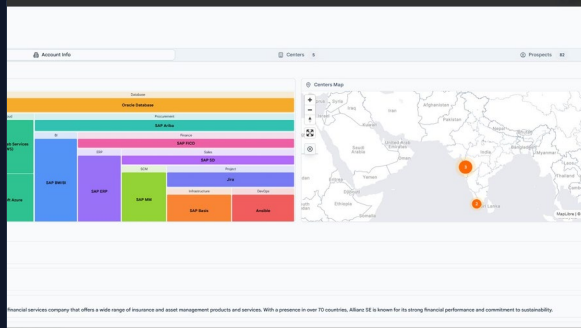

The Platform in Action

Shown below: BFSI Sector Filter • 195 accounts • 436 centres • 14.1K prospects • 687K headcount

Geospatial ecosystem view

Filter any sector, city, size, or function in seconds

Account tech stack

Technology adoption mapped at individual GCC level

Function	Seniority	Department
Technical Lead - Future Cloud Platform	Jr. IT	Director
Services, India	Jr. Finance	Head
Accounts	Jr. Finance	Senior Manager
	Jr. IT	Director
	Jr. IT	Head
Chief Procurement	Jr. Procurement	Director
	Jr. Procurement	Head
	Jr. Others	Director

Decision-maker contacts

Named contacts by function, seniority, and department

What-If Scenario Intelligence for GCC GTM

- Which GCCs match my ICP by sector, size, and service mix?
- Which accounts show buying signals like expansion or new hires right now?

- Who are the right decision-makers to reach by function and seniority?
- Where is my pipeline thin against peers, and which accounts should I open next?

Two audiences. One platform.

Bamboo Reports serves GCC solution providers and GCCs themselves — both sides of the ecosystem.

For GCC Solution Providers & Ecosystem Players

Advisory firms · B2B tech vendors · Real estate · PE / investors

Origination

Identify companies building or expanding GCCs before they go to open pitch.

Proposal Strength

Anchor benchmarking with current, centre-level data — not a 12-month-old report.

Live Engagement

Maintain updated ecosystem context on peers, talent, and shifts throughout mandates.

Client Retention

Post-engagement, give clients a platform for ongoing intelligence. You stay the source.

For GCCs: Intelligence to Lead, Not Just Operate

GCC heads · COOs · Strategy leads · Expansion planning teams

Peer Benchmarking

Understand how peer GCCs in your sector, size, and city are structured and growing.

Expansion Strategy

Identify cities and functions for new capability centres backed by real data.

Hiring Intelligence

See how talent pools and hiring patterns shift. Build strategy with evidence.

Seat at the Table

Give GCC leaders the intelligence to present strategic proposals to global HQs.

Intelligence at work

Proof that the model works across solution providers and GCCs alike.

Leading Global IT Services Firm

4 years | Ongoing

BFSI GCC Strategy & Intelligence

A global technology and consulting firm needed to expand its India BFSI GCC pipeline. The mandate: map global customers with India GCC presence, add look-alike accounts beyond their book, then go deep on the BFSI strategic shortlist.

What we delivered

1,050

Prospect universe: global customers with India GCCs + look-alike accounts

70+

BFSI accounts shortlisted for strategic GTM fit

44

Drill-down reports: vendor, tech, entry points, decision-makers

364

Decision-makers mapped across BFSI shortlist

Global Medical Device Company GCC

Phased | Strategic

GCC Benchmarking, Talent & Expansion

A Fortune 500 medical device company setting up their India GCC needed structured intelligence on peer GCCs, talent landscapes, and a benchmarking framework to build their board-level business case.

Phased engagement

Discovery

India GCC overview + peer company profiles in the sector

Analysis

Talent benchmarking, RA services landscape, peer comparisons

Ongoing

Customized dashboard + capacity planning + ecosystem monitoring

Outcome

Intelligence presented to global leadership — seat at the table

STAY IN TOUCH

From the Research NXT and Bamboo Reports team

Thank you, Philip.

Looking forward to mapping every floor of Parseq's India GCC ambition.
